I am a web developer with over 5 years of experience, specializing in both frontend and backend development. Although I studied electrical engineering, I have honed my skills in PHP, Laravel, and JavaScript, enabling me to create and maintain dynamic, robust web applications.

My diverse background allows me to approach problems with a unique perspective, seamlessly bridging the gap between technical and creative solutions. I thrive in collaborative environments, consistently delivering high-quality, efficient code while contributing to the overall success of the team.

Key skills include:

Team Collaboration and Communication - API Integration - Version Control with Git
- Database Management Responsive Design - Experience with PHP and Laravel
- Proficiency in HTML, CSS, and JavaScript - Problem-Solving and Debugging:
